Robot Protect XL
Pages 6 and 7

WHY IS IT ESSENTIAL TO PROTECT YOUR ROBOTIC LAWNMOWER?

The sun and ultraviolet rays

Robots will be sheltered from sun's ultraviolet rays (and moon). Thanks to their design, the air continues to circulate, favoring good ventilation to prevent stagnation of heat and humidity. If **the battery** is working with a temperature exceeding 30°C, its lifetime will be reduced by 20 %. Robotic mowers **screens are also very sensitive** to the sun and heat.

Protect your equipment against heat will really help to achieve its optimum life expectancy.

The rain and sudden showers

Most of robotic mowers are water resistant. However, electronic circuits dislike humidity even more for an extended period of time. Generally, your robot stays at least **16 hours per day on its charging station** (mostly set for working 4/5 days per week and few hours every day).

The hail, lightnings and falling branches

Many dangers are coming from the sky : **lightning, hail, falling branches, tiles...**

Without Robot Protect, you expose your device against these dangers that could cause significant damages on your robot and its charging station. Resistant and quality, our garages will protect them against those risks or at least reduce damages

Prying eyes and tossed balls

If your robotic mower is outside day and night unattended, it may become an easy target for thieves. Even if recent models are equipped with an anti-theft system, the automatic mower is an outward sign of wealth and as the French proverb says : "Live happily, live hidden"

Your neighbor kids or yours enjoy playing ball games in your garden. Strength and accuracy are not always under control, it may possible that the ball hits severally your equipment, robot or its charging station (and not only once).

Anthracite grey

ROBOTPROTECT C

Robot Protect C is the smallest model of the range. It enables an optimized protection to **small and medium robotic mowers**.

Amazing pieces of technology, a robotic lawn mower needs a garage to **sustainably and effectively** protect them against different weather conditions that could make them **prematurely obsolete**.

TWO OPENING SYSTEMS

THE ROOF

THE FRONT

Multi-brand, it is well adapted to robotic mowers, **whether they exit from their charging station in reverse or from the side**.

DIMENSIONS

Length x Width x Height : 60 x 43 x 30 cm - 4 kg

Maximum robot height : 25 cm

Below, a non exhaustive list of the **compatible models** (informative and indicative value not contractual) :

MARQUES ET MODÈLES / BRANDS AND MODELS	
ALKO®	ROBOLINHO E - 500
AMBROGIO®	L15 - L60 - Série Twenty - Zeta R
BOSCH®	S+ 350 - S+ 500 - XS300 - M700
CRAMER®	RM800
CUB CADET®	XR1 500
GARDENA®	SILENO Minimo - City
GREENWORKS®	Optimow 4 - 5 - 7
HONDA®	HRM 40 - HRM 70 live
HUSQVARNA®	105
McCULLOCH®	Rob S500 - S600 - S800
ROBOMOW®	Serie RX - Serie RT
TECHLINE®	DX2 - LX2 - SX2 - S6 - L6 - D1
WIPER®	Serie Blitz - Serie I - Serie I+ - Serie IR
WOLF GARTEN®	Loopo S150 - S300
YARD FORCE®	SA 900 Eco - 400RI

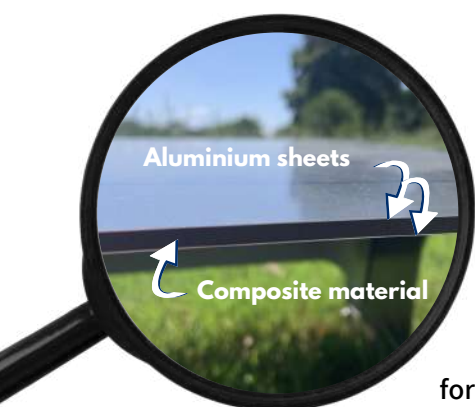

OUR GARAGES ARE MADE IN EUROPE WITH NOBLE AND RESISTANT MATERIALS

The product is made of a composite material surrounded by two sheets of aluminum, which gives it a **strong resistance to weather, impacts and time.**

The 4 anchoring points of the Robot Protect C ensure a **secure fastening on the ground**. It is supplied with a manual to allow a **quick and easy installation.**

ROBOTPROTECT *Life*

The Robot Protect Life garage will **protect your robot** efficiently from weather conditions and will be a **real planter** to grow aromatics, decorative plants, strawberries...

It will protect your robotic mower and its charging station from bad weather and especially from overexposure to the sun (anti-UV protection) to **ensure the longevity** of your device.

IN HARMONY WITH YOUR GARDEN

PLANTER MAX LOAD : UP TO 20 KG

Multi-brand, it adapts to mowing robots that leave their base in lateral as well as back up. Both **convenient and aesthetic**, this product made in Europe has **7 anchoring points** to ensure a good fixation on the ground.

DIMENSIONS

Length x Width x Height : 73,5 x 59 x 40 cm - 9 kg

Maximum robot height : 38 cm

You will find in the manual all the instructions that will help you to assemble it quickly and easily.

Below, a non exhaustive list of the **compatible models**
(non-contractual, informative and indicative) :

LET YOUR IMAGINATION RUN WILD
WITH ROBOT PROTECT LIFE

THE GARAGE HAS BEEN DESIGNED SO
THAT WATER DRAINS OUTSIDE

*This Robot Protect product is compatible with the mentioned brands (trademarks owned by third parties which have not any relation with Garden Equipment and its businesses). They are used for ease of reference to help the customer about the compatibility and the origin of the presented product.

Grey & Black

**ROBOTPROTECT** *Side*

The **Robot Protect Side** protects side-charging robots from the effects of **exposure to rain and sun** (UV protection) to ensure their longevity. A robotic mower must be effectively protected from weather conditions, which affect its **lifespan and performance** over time.

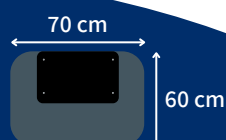

THE OPENING SYSTEM WILL ALLOW EASY ACCESS TO THE ROBOT AND THE BASE STATION

Its **opening system** allows access to the charging station and to the robot when needed. It is sometimes necessary to access it to carry out various manipulations, or during installation for example.

DIMENSIONS

Length x Width x Height : 60 x 70 x 28 cm - 5 kg
Maximum robot height : 26 cm

The special feature of the Robot Protect Side is that it has been designed and conceived for robotic mowers that are parked sideways in their base.

Its design and dimensions allow it to be compatible with the majority of the robots of this type* :

MARQUES ET MODÈLES / BRANDS AND MODELS

ALKO®	ROBOLINHO E500 - 700 - 1100 - 3100 - 4100
KRESS ROBOTIC®	KR101E - KR110 - KR111 - KR112 - KR113 - 120E - 121E - 122E - 123E
WORX®	Landroid S300 - M500 - M700 - L1000 - L1500 - L2000

The 6 anchoring points kit provides a great fixation on the ground, which is essential in strong winds.

Supplied with the manual, the Robot Protect Side is very quick and easy to assemble, regardless of your DIY skills.

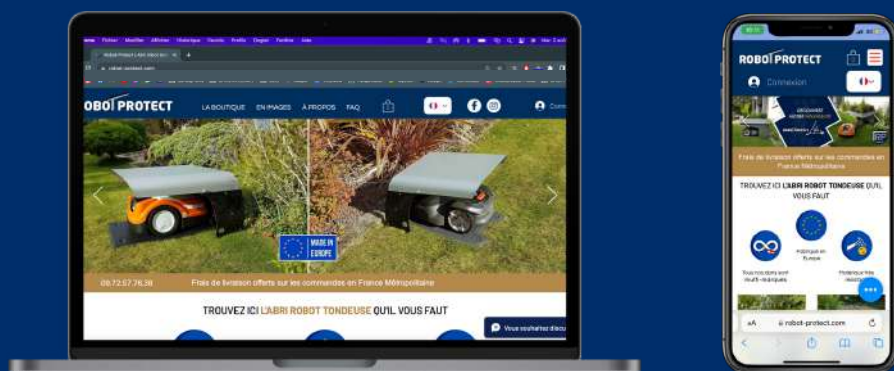

*This Robot Protect product is compatible with the mentioned brands (trademarks owned by third parties which have not any relation with Garden Equipment and its businesses). They are used for ease of reference to help the customer about the compatibility and the origin of the presented product.
